

I support media diversity

Re: Docket No. 02-277, The Biennial Review of the FCC's broadcast mediaownership rules.

Don't hand over our airwaves to the media giants. I won't waste your time telling you what you already know. You already know that the real issue is corporate profit, not First Amendment rights or censorship.

Show us that you can still do what you know is right, and don't give the media giants more control over what we see and hear. Your responsibility is to U.S. citizens. We'll all be watching where you stand on this.

Thank you,

Mike Keller
